

NAMGAR Drive Your MGA Day

This year May 3, 2025 was the North American MGA Register "Drive Your MGA Day". We started the drive at the Horner's, 74 Nutting Road, Westford, MA at 10:30 am to take back roads to the Peterborough Diner: <https://www.peterboroughdiner.com> in NH for lunch. Following lunch, we drove to the Fryes Measure Mill historic mill: <https://fryesmill.com>. Following this visit we made our way back home. Members who attended were myself in my MGA, Ned Sparrow in his MGB, and Chuck O'Neal and Deb in their MGA. We had a nice lunch at the diner. Driving from the diner to the Measure Mill we encountered some unpaved roads on the backside of North Pack Monadnock Mountain and some steep climbs. Chuck complained that I had too much power in my MGA (with an MGB engine). Ned did not complain at all! I had never been on these roads before, so, I took it as they came! We also took roads I had not traveled on for a number of years, so, it was good I had a "good" sense of direction as we ended up on a completely different set of roads than what we came up on. We had good weather and always seemed to be just ahead of a rain shower. On the way home I crossed several areas that had showers, but they were gone by the time we drove through there.
